Dear Dave,

I've heard from Jim White. You'll get his files only he wants to put them in shape first.

Someone else, a personal friend who is much younger, had asked for the China files.

He has 200 - 300 assassination books, others on Watergate, and some related to both. I presume you'd like them even if they duplicate so you can lend them out and replace lost copies.

Please let me know so I can tell him.

Hope you are all having a good holiday. We are not to have a white one. Somehow, when everyone predicted a heavy snow storm on Tuesday, we missed it and it got warmer.

Yesterday and today I was able to do a little outside work, carrying and dragging and cutting up firewood.

Not as much as I'd have liked but I enjoyed it.

Best to you all,
